REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art fails to teach or fairly suggest the step of simultaneously forming two or more mirror image blade components having opposite, spaced profilings in a blank such that the blade components are detachable from the blank along a line spaced from and parallel to the profilings. While some of the references (e.g. EP 0 448 043 A1 and WO 99/04091) are *at least suggestive* that a plurality of doctor blades can be manufactured simultaneously in a continuous pultrusion process (and then subsequently cut to size), there is no teaching of forming the blank to include mirror image blade components having opposite, spaced profilings.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David P. Bryant whose telephone number is (703) 308-1859. The examiner can normally be reached on Monday-Thursday (6:30-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on (703) 308-1789. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
